Asia Partnerships, Pratt & Whitney

JUNG BUM (JUDY) MOON
Connected Aviation Solutions
Collins Aerospace

KYUNG-SOOK LEE
Acting Country Representative
The Asia Foundation
Moderator

Jiyeon (Julia) Park
Sr. Manager
Asia Partnerships, Pratt & Whitney

An engineer by trade, in her current role Julia manages a key airplane engine program in the APAC region. Julia works across internal and external teams to build partnerships with customers and ensure the program stays on-track. Julia holds an Engineering Management MBA from Drexel University, as well as a M.S. in Human Factor Science and a B.A. in Aeronautical Engineering from Embry-Riddle Aeronautical University.

Jung Bum (Judy) Moon
Connected Aviation Solutions
Collins Aerospace

Judy is a dynamic leader who believes in using information technology (IT) and engineering to develop solutions to business challenges. In her current role in connected aviation solutions Judy is responsible for aligning a comprehensive set of IT system capabilities, working with government agencies, airlines, and airports to ensure airport border management systems function properly. Judy holds an Aviation MBA from Korea Aviation University and B.A. in Science Education from Ewha Womans University in Korea.

Kyung-sook Lee
Acting Country Representative
The Asia Foundation
Moderator

Kyung-sook Lee is the Acting Country Representative for The Asia Foundation in Korea. Prior to her current role, she served as Director of Programs overseeing and managing the Foundation's programs in the country, including accelerating women's business, North Korean refugee entrepreneurship, Korean government-funded violence against women in Mongolia, and international relations and exchange programs.
